

PE Grant 24-25

At St Teresa's, we are dedicated to improving the quality of physical education, school sport, and physical activity for all our pupils. This year, we have received a Sports Premium grant of £18,690, which we are using to support a wide range of initiatives aimed at promoting healthy, active lifestyles and enhancing the overall PE provision at our school.

A key part of the funding is used to invest in new sports equipment. Recent purchases include basketballs, cones, Gaelic footballs, and jumping sacks for Sports Day. These resources have enriched our PE curriculum and helped ensure that both staff and pupils have access to high-quality equipment for engaging, inclusive lessons. Regular maintenance of equipment also ensures that all children can participate fully and safely.

To support our commitment to competitive sport, we use part of the budget to contribute towards the maintenance of our school minibus. This enables pupils to travel to inter-school fixtures and tournaments. We currently take part in the Berkshire Schools' Football Association, the Wokingham Football Association, and a local schools' netball and cricket league. These competitions help children develop important skills such as teamwork, communication, and resilience.

We also participate in School Games events, which provide inclusive sporting opportunities for children who may not usually compete. These events are designed to encourage participation from all pupils, regardless of ability, and promote the enjoyment of physical activity without the pressure of competition.

Through careful planning and targeted use of our Sports Premium funding, we aim to build a positive and inclusive sporting culture at St Teresa's; one where every child is motivated to take part, develop their skills, and grow in confidence through physical activity.

The table below outlines how the funding will be allocated this year.

PE GRANT 2024/2025

Supplier	Date	Invoice	Net	Description
